1. **Doubel Entry Accrual Based Accounting**

With the 74th Constitutional Amendment the Urban Local Bodies (ULBs) have been accorded a constitutional status and are expected to function as local self governments to provide better governance. One of the important reforms expected of the ULBs is switch over to Accrual Based Accounting System from the present single entry cash based accounting system. A Task Force set up by the Comptroller and Auditor General of India (CAG) has prescribed accounting and budgeting formats, significant accounting policies, etc. The Ministry of Urban Development has with the support of CAG of India, USAID-FIRE-D and National Institute of Urban Affairs has had a National Municipal Accounting Manual prepared for adoption by all the states. Accordingly, GoI has sent the National Municipal Accounting Manuals to state governments for developing state-specific accounts and budget manuals on the lines of NMAM for adoption by all ULBs across the state.

In GO Ms. No.233 MA dated 22nd May, 2002, Government of Andhra Pradesh (GoAP) has taken a policy decision that urban local bodies (ULBs) in the State would adopt accrual based double entry accounting system within their jurisdiction with immediate effect.

System Launch

1.6.1 As contemplated, the system software was launched at VMC and it came into live environment on 1st April, 2007 with entry of transactions in the software. The Standing Committee, VMC in its resolution No.334 of the meeting held on 17th December, 2007 has adopted the manuals published by GoAP and agreed to switch over to the accrual system of accounting from the FY 2007-08. From the financial year onwards the books of accounts are maintained under accrual based accounting system.

Assumption in Preparation of Financial Statement

The assumption in the preparation of financial statements is in conformity with NMAM/APMAM guidelines. Various estimates and judgments are NMAM and APMAM compliant. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making judgments about carrying value of assets and liabilities which are not readily apparent from the record. Actual results may differ from these estimates. The estimates and underlying assumptions shall be reviewed on a regular basis. Revisions to accounting estimates en-course, due to the misclassification of accounting heads, or otherwise may affect the estimates of past, present and future estimates as the case may be without contributing to any major financial implications.
